

### 7.3. Institutional Distinctiveness

#### Food Distribution during lockdown period

IIMC distributed food packets during lockdown period from 2<sup>nd</sup> April 2020 to 7<sup>th</sup> May 2020. Covid-19 created problems to everyone, particularly to fulfil the basic needs of the poor due to lockdown because of Covid-19. IIMC distributed food packets in different areas to the needy people. As a social responsibility activity, college extended its hands and continued food distribution for more than a month. Food distribution was the first priority because during the pandemic no one should suffer with hunger was the idea behind it. So this initiation was taken by the college which was appreciated by all.
