Peer Reviewers Guide Lines

1. To provide timely review that is relevant and constructive.

2. To keep the submission and contents of articles confidentially.

3. To report the editor if any circumstances arise that will delay their review.

4. To provide honest and unbiased comments on the research papers.

5. To inform the editors that they have reviewed the same article for another Journal.

6. The reviewer should complete their review of an article within 15 days.
