## About FactSet

FactSet combines hundreds of databases into a single, powerful information system. It is a one-stop source for financial information and analytics for business analysts, portfolio managers, investment bankers / management firms and other financial professionals to analyze companies, portfolios, markets & economies. Founded in 1978 and operating from 46 locations worldwide employing nearly 8500 people, FactSet has over \$1.1 Billion in annual revenues and is headquartered in Norwalk, Connecticut. Our operations extend within North America as well as Europe and the Pacific Rim. Since 1996, the Company has been publicly traded on the New York Stock Exchange under the symbol FDS, and is also dual-listed on the NASDAQ under the same symbol.

## Department Brief

FactSet Fundamentals Team collects financial statements of Public and Private (US only) companies across the continent. The team sources the company filings from various sources like stock exchanges, company websites, and regulatory body & third party vendors. We extract & analyze the data from financial statement like Balance Sheet, Income Statement & Cash flow statement of the company. Also, the team collects the textual data like Business Activities, Officers, Shareholder, industry classification and etc.
